

Group Planning with Google Drive... and a glass of wine

Free with a tip jar toward refreshments

Help Your Organization Get the Resources it needs to Serve You and Your Community!

Scope: Using Google Apps - Google is combining a whole bunch of computer programs that their staff made or purchased over the last decade. We will use Google Drive Slides to organize fundraising pages.

Social: Meeting people and sharing work so the final result is better with less stress to get there.

Event Summary

Please join several nonprofit and community-building businesses while brushing up on your business planning skills. Google Drive provides a collaborative environment where your staff, customers, and volunteers can help you document your goals and objectives. The PDF output makes sure your business or organization thrives. Our business planning model builds accountability and volunteerism into the process. Bring your laptop and get set up to recruit help for your next venture.

December 10th, 2013 5:30 PM

6151 Lakeside Dr. # 1000
Reno, NV 89511
